Meet Convergence at TEM Events across Europe

Convergence regularly attends trade events across Europe.

You will find us at industry specific Telecom Expense Management events, conferences, forums and seminars but also at broader events such as events oriented to procurement professionals, technology events and events focused towards the telecom industry.

For most events we typically have a number of free admission passes available. Don't hesitate to contact us prior to any event where we participate to request your free pass.

2014 Planned events

2014 events are not yet planned
